

European Competition with MEDREGION Game

Test your skills in the field of Scientific Research with the MEDREGION Game, an online game addressed to students from 10 years old coming from all European Schools!

Images by Mario Ciotti

Are you a school?
Are you a diver, tour operator,
monitoring technician,
specialist in aquaculture,
coast guard, fisherman?
If yes, play with this Scientific
Game!

DEL SALENTO

Learn more about the Game

Through this game, you will be able to improve your knowledge on ecological topics of marine ecosystems, their monitoring and management. The Game focuses on ecological tools useful to describe the marine ecosystem status, such as biodiversity, water noise, eutrophication, alien species and on the approach of the Marine Strategy Framework Directive.

Online competition

REGISTER YOUR TEAM ON THE WEB PLATFORM:

<https://medregion.scientificgame.unisalento.it/>

Let's deep the topic through the 'Background material' available on the platform.

THE COMPETITION WILL BE ON MAY FOR SCHOOLS AND JUNE FOR STAKEHOLDERS.

The date will be communicated by email and on the platform.
